Idea: To analyze the requirement through In Depth research with the help of brilliant tools

Sketch: To draft the design that is related to the research in order to check the feasibility.

Design: After completing feasibility test, a final design is prepared by using smart tools.

Develop: Now, our the development team starts developing the solution according to design.

Test: In testing phase, we test every component to make sure that our solution fits the requirement.

Celebrate: We make delivery for the solution and assist our clients to control and administer solution.

QUALITY PROMISE

- ❑ We Deliver Value By Delivering Quality!
- ❑ Quality is in the core of our Creative Corner Hub Values and it reflects in everything we do. Our leaders along with a dedicated independent quality control team monitors and alerts at every step of our production.
- ❑ Creative Corner Hub quality principles: Three principles dictate the quality analysis and parameters at Creative Corner Hub.
 - ❑ 1- Fit for purpose: The quality analysis begins right from the planning stage ensuring that the product should be suitable for the intended purpose.
 - ❑ 2- Right first time: At Creative Corner Hub we believe even a small glitch as cost us client or even worse cost our client their brand equity, we ensure that any mistakes should be eliminated before deployment.
 - ❑ 3- Total Quality management (TQM): We believe quality should be reflected in not only the end product but the processes and the people that are involved with the development of the product.
